

Building Enclosure Technician

Build a new career or continue your professional construction growth in the exciting Building Enclosure industry. Contribute to healthy and safe buildings by conducting tests and investigations onsite on some of the most iconic commercial buildings in New England, large scale construction, historic buildings, and pre- and post-construction projects. Learn from experts with many years of practical experience and knowledge. Work for a small business with a big history, great reputation, and supportive working environment. Full time, part time, seasonal, or project-specific positions available.

Position Duties:

- Helps perform and learns specialized building enclosure services: weatherproofing tests and inspection services, along with forensic services, window, curtain wall, storefront, and door testing, FM Global wind uplift test, smoke test, electronic leak detection tests, and other building envelope testing and inspections.
- Is responsible for interpreting and recording findings, processing reports, and interfacing with clients.
- Performs other duties as assigned by the Director of Building Enclosure Services, such as daily reports, calibrating and maintaining equipment and assisting in the Construction Materials Testing Lab, if needed.

Requirements:

- Engineering degree in Civil Engineering
- Preferred minimum of 3 years of experience in construction engineering, building inspection services, or building enclosure services
- Ability to compose professional reports in a timely basis with accuracy and attention to detail
- Willingness to learn and share knowledge
- Excellent verbal and written communication skills, along with problem solving, organizational, and time management skills in the field and office
- Clean record from pre-employment background check (CORI)
- Reliable vehicle, valid Driver's License and clean driving record
- Physical abilities necessary: Ability to sit; stand; use hands to finger, handle, or feel objects, tools, or controls, reach with hands and arms, talk, and hear. Occasionally required to walk, sit, climb or balance, and stoop, kneel, crouch, or crawl. Ability to lift up to 125 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, depth perception, and the ability to adjust focus. While in the field, may be required to walk in rugged conditions, work in adverse weather conditions, stand up to eight hours or more at a time, and work from heights (ex., from staging, ladders, boom-lift, scaffolding, or on roofs of high buildings).
- Willingness to comply with safety procedures in office and on job sites. Must wear attire appropriate with performing assigned duties safely. ANSI-approved footwear necessary. Hard hat, safety vest and safety glasses are provided.
- Must be legally authorized to work long term in the US
- OSHA-10 certification
- Computer proficiency (MS Office and AutoCAD)

This is a full-time position. Compensation commensurate with education and experience. Benefits package available
